# EC update

Supported models: U820

Description: The auto power-on function can be realized by updating the EC

Download EC file:

https://www.mediafire.com/file/di12f1vqymg38o5/U820%2528auto_power_on%2529.rar/file
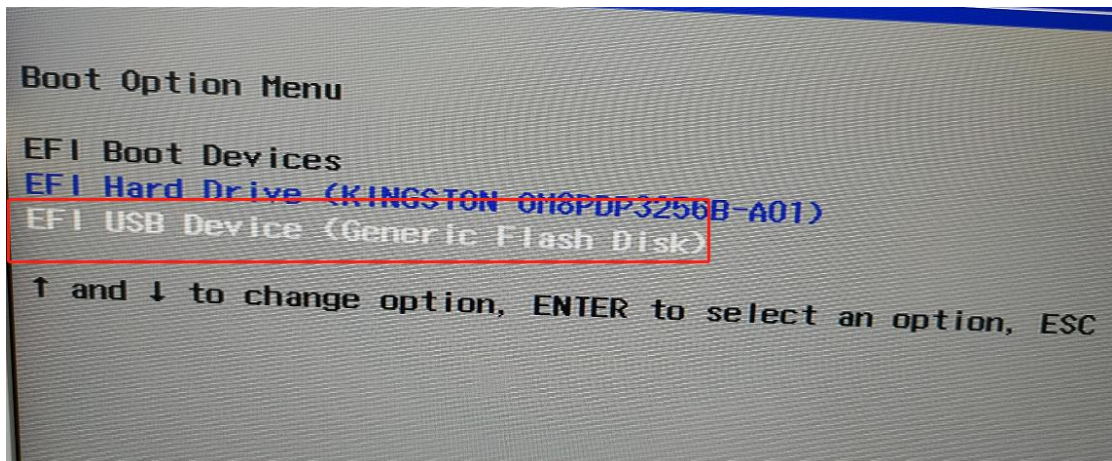

Step:

1. Format your USB flash drive in FAT32 format and name it "WINPE".

2. After decompression, copy the files in the ' U820(auto power on) ' folder to the root directory of the USB flash drive.

Name	Date modified	Type	Size
EFI	1/20/2021 12:21 PM	File folder	
CB9EC_V1.06.BIN	1/20/2021 12:21 PM	BIN File	128 KB
Checksum.txt	1/20/2021 12:21 PM	Text Document	1 KB
eFuitX64.efi	1/20/2021 11:06 AM	EFI File	101 KB
FEC64.NSH	1/20/2021 12:21 PM	NSH File	1 KB

3. After restarting the computer, Press "F7" and select "EFI USB Device " to start.

4. The script will automatically run the flash update.

5. Type exit, press the enter key, and then unplug the USB flash drive.
